Summary

Pros (1)	Cons (1)
Honest model accuracy vs a baseline	Long thinking before the first file

Pros

1. Honest model accuracy vs a baseline

Reported MAE 39 units and R2 0.93 on unseen homes against a baseline of MAE 132 / R2 0.28 instead of only showing the best number.

Cons

1. Long thinking before the first file

It planned for a long time before writing any code on the first prompt.
